

Key Instant Recall Facts

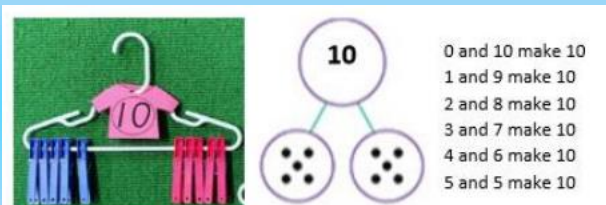

Reception Summer Term 1

By the end of this half term, children should know the following facts. The aim is for them to recall these facts with **speed and accuracy**:

To partition numbers to 10 into two groups.

Children should be able to recall the pairs of numbers which make 10 when added together.

Key Vocabulary

Partition
Two groups
ten

10 is made of ____ and ____

Top Tips

- Practise little and often
- Practise the KIRF whilst walking to school or during a car journey
- You don't need to practise all aspects of the KIFS at once:-
- You could choose a fact a day or a few facts per week to practise

Practical resources and ideas

Everyday Objects - Using items around the house to find different ways of making 10, e.g one blue teddy and nine red teddies. One and nine make ten.

Stories - Making up stories with items around the home, e.g there are 2 cars in the car park and 8 more cars arrive, how many cars altogether? Two and eight make ten

Use your fingers: to recall different ways to make 10. Look at how many fingers you have up and how many you have down e.g, 4 up and 6 down four and six makes ten
