Trips & Visits

TEAM WORK

Residential trips, visits and visitors can give children so many opportunities, both academically and socially and emotionally.

Teamwork and working co-operatively with a range of people is central to every trip.

Becoming more independent and learning to negotiate is also a key skill and experience.

FUN

RELATIONSHIPS

WELLBEING

Trying new opportunities, challenging ourselves physically and mentally and sometimes being outside of our comfort zone is also vital to help children build resilience and feel a sense of achievement.

See Part 2 for more photos and comments from the Year 6 residential trip last week.

WALK & BIKE TO SCHOOL

Stream study, learning first hand about wildlife in the water and later using high spec microscopes to look at what was found.

Helping with some of the harder jobs as well as having fun on the water is part of the experience.

Teamwork using planks that are too short to cross the space meant everyone had to work together to get across the swamp.. without getting too wet!

And a tiny bit of extra mud just for fun!

Theo stormed the Leap of Faith. It was very high and very wobbly but every single child had a go and faced their fears!

Spending time in nature in the Forest of Dean was really fantastic. Thank you to all the staff who gave up their own time to allow the trip to happen.
