

DANCE

Dance and Drama Vision: For all pupils to leave St.Barnabas Primary School as confident, social individuals with a creative imagination and an understanding of performance and presentation skills.

Within the 2014 National Curriculum, Dance is outlined within Physical Education:

Key Stage 1: "Pupils should develop fundamental movement skills, become increasingly competent and confident and access a broad range of opportunities to extend their agility, balance and coordination, individually and with others. They should be able to engage in competitive (both against self and against others) and co-operative physical activities, in a range of increasingly challenging situations."

Pupils should be taught to:

- master basic movements including running, jumping, throwing and catching, as well as developing balance, agility and coordination, and begin to apply these in a range of activities
- perform dances using simple movement patterns

Key Stage 2: "Pupils should continue to apply and develop a broader range of skills, learning how to use them in different ways and to link them to make actions and sequences of movement. They should enjoy communicating, collaborating and competing with each other. They should develop an understanding of how to improve in different physical activities and sports and learn how to evaluate and recognise their own success."

Pupils should be taught to:

- develop flexibility, strength, technique, control and balance (for example, through athletics and gymnastics)
- perform dances using a range of movement patterns
- compare their performances with previous ones and demonstrate improvement to achieve their personal best

Progression Of Skills

Year Group	Skills
Reception	<ul style="list-style-type: none">• Describe how the body feels when still and when exercising• Join a range of different movements together• Change the speed of their actions• Change the style of their movements• Create a short movement phrase which demonstrates their own ideas• Control their body when performing a sequence of movements• Talk about what they and others have done
Year 1	<ul style="list-style-type: none">• Describe how the body feels before, during and after exercise• Copy and repeat actions• Put a sequence of actions together to create a motif• Vary the speed of their actions• Use simple choreographic devices such as unison, canon and mirroring• Begin to improvise independently to create a simple dance• Perform using a range of actions and body parts with some coordination• Begin to perform learnt skills with some control• Watch and describe performances• Begin to say how they could improve
Year 2	<ul style="list-style-type: none">• Recognise and describe how the body feels during and after different physical activities• Copy, remember and repeat actions• Create a short motif inspired by a stimulus• Change the speed and level of their actions• Use simple choreographic devices such as unison, canon and mirroring• Use different transitions within a dance motif• Move in time to music• Improve the timing of their actions

	<ul style="list-style-type: none"> • Perform sequences of their own composition with coordination • Perform learnt skills with increasing control • Watch and describe performances, and use what they see to improve their own performance • Talk about the differences between their work and that of others
Year 3	<ul style="list-style-type: none"> • Recognise and describe the effects of exercise on the body • Know the importance of strength and flexibility for physical activity • Explain why it is important to warm up and cool down • Begin to improvise with a partner to create a simple dance • Create motifs from different stimuli • Begin to compare and adapt movements and motifs to create a larger sequence • Use simple dance vocabulary to compare and improve work • Perform with some awareness of rhythm and expression • Develop the quality of the actions in their performances • Perform learnt skills and techniques with control and confidence • Watch, describe and evaluate the effectiveness of a performance • Describe how their performance has improved over time
Year 4	<ul style="list-style-type: none"> • Describe how the body reacts at different times and how this affects performance • Explain why exercise is good for your health • Know some reasons for warming up and cooling down • Identify and repeat the movement patterns and actions of a chosen dance style • Compose a dance that reflects the chosen dance style • Confidently improvise with a partner or on their own • Compose longer dance sequences in a small group • Demonstrate precision and some control in response to stimuli • Begin to vary dynamics and develop actions and motifs in response to stimuli • Demonstrate rhythm and spatial awareness • Change parts of a dance as a result of self-evaluation • Use simple dance vocabulary when comparing and improving work • Perform and create sequences with fluency and expression • Perform and apply skills and techniques with control and accuracy • Watch, describe and evaluate the effectiveness of performances, giving ideas for improvements

	<ul style="list-style-type: none"> • Modify their use of skills or techniques to achieve a better result
Year 5	<ul style="list-style-type: none"> • Know and understand the reasons for warming up and cooling down • Explain some safety principles when preparing for and during exercise • Identify and repeat the movement patterns and actions of a chosen dance style • Compose individual, partner and group dances that reflect the chosen dance style • Show a change of pace and timing in their movements • Develop an awareness of their use of space • Demonstrate imagination and creativity in the movements they devise in response to stimuli • Use transitions to link motifs smoothly together • Improvise with confidence, still demonstrating fluency across the sequence • Ensure their actions fit the rhythm of the music • Modify parts of a sequence as a result of self and peer evaluation • Use more complex dance vocabulary to compare and improve work • Perform own longer, more complex sequences in time to music • Consistently perform and apply skills and techniques with accuracy and control • Choose and use criteria to evaluate own and others' performances • Explain why they have used particular skills or techniques, and the effect they have had on their performance.
Year 6	<ul style="list-style-type: none"> • Understand the importance of warming up and cooling down • Carry out warm-ups and cool-downs safely and effectively • Understand why exercise is good for health, fitness and wellbeing • Identify and repeat the movement patterns and actions of a chosen dance style • Compose individual, partner and group dances that reflect the chosen dance style • Use dramatic expression in dance movements and motifs • Perform with confidence, using a range of movement patterns • Demonstrate strong and controlled movements throughout a dance sequence • Combine flexibility, techniques and movements to create a fluent sequence • Move appropriately and with the required style in relation to the stimulus, e.g. using various levels, ways of travelling and motifs • Show a change of pace and timing in their movements • Move rhythmically and accurately in dance sequences • Improvise with confidence, still demonstrating fluency across their sequence • Dance with fluency and control, linking all movements and ensuring that transitions flow
